MAKER PACKET · HOW TO

Small business card maker: thank-you cards, price list and more

A matching set for your shop or craft-fair table: thank-you cards for orders, business cards, a 10-stamp loyalty card, a price list with dotted leaders and a care card. Four designs (Clean Arch, Terracotta, Blush Botanical, Modern Mono) in 16 colourways. Type it once, print sheets with crop marks.

Edit your design

1. Open the editor file (or the online editor).
2. Pick a card: thank-you card, business card, loyalty card, price list or care card.
3. Choose a design and a colour.
4. Type your words: for the price list, write each line as name | price.
5. Choose Letter, A4 or Exact size and press Download PDF (or PNG).

> **The editor file** (Maker Packet Editor - open in your browser.html) opens in Chrome, Edge, Safari or Firefox on a computer, and in Chrome on Android. Everything stays on your device. On iPhone or iPad, use the online editor at https://cybermaxtools.com/everyday/small-business-card-maker/ and unlock it with the code from your receipt, or open the editor file on a computer.

Print

Print at 100% / Actual size (not 'fit to page') on matte card stock (80-110 lb / 216-300 gsm). Sheets have crop marks: cut on the marks with a paper trimmer. For a print shop, choose 'Exact size' and send the PDF. The 300 dpi PNG is ready to text, email or post.

Ready-to-print samples

The folder 'Ready to print (sample text)' has every item in every design as a print-ready PDF, so you can see them all before editing.

Fonts and licence

Fonts are Google Fonts under the SIL Open Font License. Business licence: print these cards for your own shop or business as often as you like. Please don't resell, share or re-upload the files or the editor.
