Edit your design

1. Open the editor file (or the online editor).
2. Pick a size: hang tag, square tag, gift label or round sticker.
3. Choose a design and a colour.
4. Type the To and From names.
5. Choose Letter or A4 and press Download PDF; print at 100% and cut on the crop marks.

> **The editor file** (Ribbon Tags Editor - open in your browser.html) opens in Chrome, Edge, Safari or Firefox on a computer, and in Chrome on Android. Everything stays on your device. On iPhone or iPad, use the online editor at https://cybermaxtools.com/everyday/christmas-gift-tag-maker/ and unlock it with the code from your receipt, or open the editor file on a computer.

Print

Print at 100% / Actual size (not 'fit to page') on matte card stock (80-110 lb / 216-300 gsm). Sheets have crop marks: cut on the marks with a paper trimmer. For a print shop, choose 'Exact size' and send the PDF. The 300 dpi PNG is ready to text, email or post.

Ready-to-print samples

The folder 'Ready to print (sample text)' has every item in every design as a print-ready PDF, so you can see them all before editing.
