TINSEL PARTY · HOW TO

# Christmas party invitation maker: type, pick a colour, print

Editable Christmas party invitations with a matching menu, welcome sign, thank-you card and place cards. Three designs (Evergreen, Buffalo Plaid, Twinkle Lights) in 12 colourways, for family, friends or the office party. Works on your phone or computer; nothing to sign up for.

## Edit your design

1. Open the editor file (or the online editor).
2. Pick the item: invitation, menu, welcome sign, thank-you card or place cards.
3. Choose a design and a colour.
4. Type your words; the preview updates as you type.
5. Choose Letter, A4 or Exact size and press Download PDF (or PNG).

> **The editor file** (Tinsel Party Editor - open in your browser.html) opens in Chrome, Edge, Safari or Firefox on a computer, and in Chrome on Android. Everything stays on your device. On iPhone or iPad, use the online editor at https://cybermaxtools.com/everyday/christmas-party-invitation-maker/ and unlock it with the code from your receipt, or open the editor file on a computer.

## Print

Print at 100% / Actual size (not 'fit to page') on matte card stock (80-110 lb / 216-300 gsm). Sheets have crop marks: cut on the marks with a paper trimmer. For a print shop, choose 'Exact size' and send the PDF. The 300 dpi PNG is ready to text, email or post.

## Ready-to-print samples

The folder 'Ready to print (sample text)' has every item in every design as a print-ready PDF, so you can see them all before editing.

## Fonts and licence

Fonts are Google Fonts under the SIL Open Font License. Personal licence: make invitations and printables for your own parties (office parties included). Please don't resell, share or re-upload the files or the editor.
